

2023 GOSHEN PRE-EVENT MEDICAL SCREENING CHECKLIST

Please complete the checklist below on the day you are leaving for camp. You do not need to turn in this sheet. Unit leaders and provisional campers (scouts attending as individuals) should fill out and turn in the Unit Pre-Event Medical Screening Form.

This is a tool to help leaders identify potentially communicable diseases in advance of event participation. The intent of this checklist is to review with each participant their current health status both before departure and upon arrival at the event.

Do not participate if you have had any of the following symptoms in the past 24 hours:

- Fever (100.4°F or greater)
- Vomiting
- Diarrhea
- New cough

Do not participate if you or anyone you live with has recently tested positive for COVID-19 or does not have test results back.

If you have a positive COVID-19 test, follow the CDC guidance for isolation and your personal health care provider's treatment recommendations.

Be responsible for your health and that of others. Isolate if you are sick. Do not attend any activity/meeting/event if you, anyone you live with, or anyone you have recently been around feel unwell. Symptoms might include:

- Unexplained extreme fatigue
- Unexplained muscle aches
- New rash
- Sore throat
- Open sore

Participants who are symptomatic or ill should not attend or return to an activity until cleared by their health care provider.

For parent/guardians:

Keep your child home if exposed to COVID-19 and not up to date with their vaccines. If your child isn't up to date with their COVID-19 vaccines and has been in close contact with someone who has COVID-19, keep them home from camp for 5 days, get them tested, and take precautions (such as wear a mask around others) until day 10, per CDC guidance, and notify camp staff.

For further information please refer to the CDC.
